HANDYNEB NUPRO

PISTON NEBULIZER

Breath Easy with Nebulizer

Nebulizers are commonly used for the treatment of asthma, cystic fibrosis, COPD and other respiratory diseases or disorders. They use oxygen, compressed air or ultrasonic power to break up solutions and suspensions into small aeosol droplets that are inhaled from the mouthpiece of the device.

Air pollution in India caused 1.2 million deaths last year*
*Lancet Planetary Health 2018
