Product Description

2

Replaceable massage heads

With the product turned off, insert the massage head firmly and pull it out when removing the massage head.

Note: When installing the massage head, please plug it in straight and do not rotate it.

Note: Numbers & type of massage heads with device may vary.

Installation method of massage heads

Please turn off massage gun and slowly insert the massage head into the groove of the nozzle of the massager. When they are combined, the installation is finished.

Operation Instructions

Charging method

1. Please fully charge the massage gun for about four hours before first use.
2. When charging, the blinking white LED indicators indicates charging.
3. When the LED blinking stops and they are continuously on, the massager is they charged.

3

4. The massage gun can be charged at any time and at any battery level.
5. The massage gun cannot work during charging. It needs to be disconnected from the power supply before use.
6. Please keep the battery fully charged every three months if not use for a long time.

Using method

1. Press the power button for 2 secs to turn on the massage gun at the first speed by default (the first speed indicator on). Each time you press the (+) button, the speed will be increased until it reaches the sixth speed (six speed indicators on). When at the 6th speed, press the button again to turn off the massage gun.
2. Long press the power button for 2 seconds to shut off the massage gun no matter at any speed.
3. The massage gun will be automatically off after 15 minutes. Turn on it when you need to use it again.

Cleaning & Maintenance

Please do remember to turn off the massage gun before cleaning.

1. Please clean it with a slightly damp towel, then dry it with a soft cloth.
2. Please do not use cleaners, cleaning brushes, gasoline, kerosene, glass cleaners or thinners to clean it.
3. Please store it in the original box or put it in a safe, dry, cool and ventilated place after wiping off the dust and dirt.
4. The massage gun is specially designed and manufactured, so there is no need to maintain or add lubricating oil regularly.

About battery recycling

About battery removal

1. The battery can only be taken out from the massage gun after it is used up or the massage gun cannot work at all.
2. Please take the massage gun to the relevant after-sale service center to take out the battery.
3. Please prevent the short circuit of the positive and negative terminals of battery after taken out.

Troubleshooting

Please refer to the following tips and solutions if you encounter problems during use.

Problem	Possible solution
Cannot work	● The massage gun battery maybe dead. Please use it after fully charged.
Suddenly stop working	● The massage gun battery maybe dead. Please use it after fully charged. ● 15 min Auto-Timer is up. Please restart the device.
A slight noise when working	● This is due to the sound generated by the mechanical structure, not a malfunction.
